# 1. About ProQuest Database

## What is database?

# What is database?

A database is an organized collection of data. It is the collection of schemes, tables, queries, reports, views and other objects.

The data is typically organized to model aspects of reality in a way that supports processes requiring information, such as modelling the availability of rooms in hotels in a way that supports finding a hotel with vacancies.

Database IN *Wikipedia*. Retrieved October 3, 2015 from <https://en.wikipedia.org/wiki/Database>

# Why do we use database?

- People use database because, for a great deal of tasks we do over our daily lives with any job, we need information to complete the tasks

⇒ Database allows you to find the needed information in an efficient manner

- Database can take many different forms
- ProQuest is a database for academic research  
**i.e. database for YOU**
- **By making yourself familiar with using database & software while at university, you can get ahead of others before starting your career**

# Why do we use library's databases?

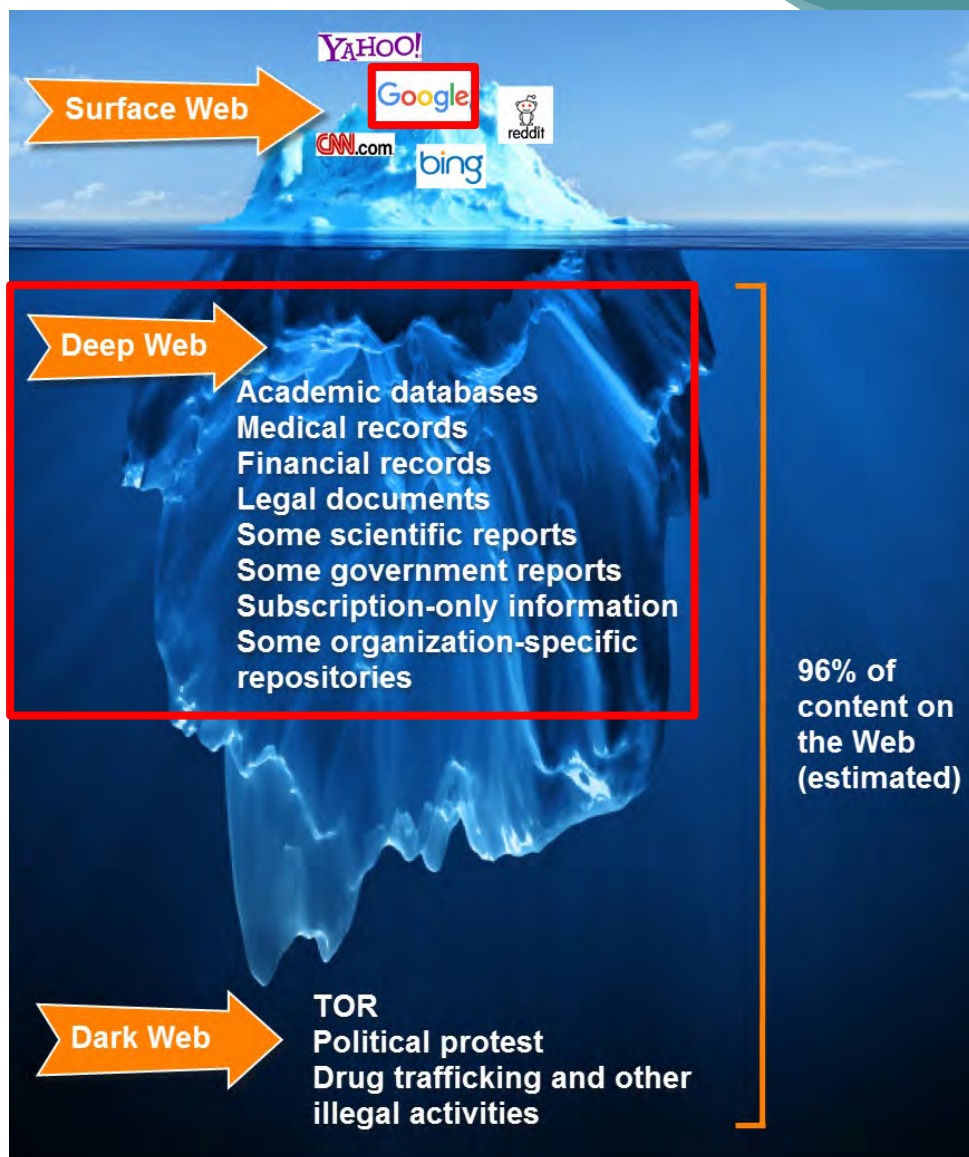

## ■ Contents on the Web

- “Surface Web”
- **“Deep Web”**
- “Dark Web”

96% of content on the Web are estimated to be outside of the surface web = **they cannot be searched on Google, Yahoo, Bing, etc.**

Louis, Lisa. "Research Guides: The Deep Web: Home."

<https://guides.library.tamucc.edu/c.php?g=448935&p=3064371>, accessed Sep 2, 2018.

# Why should you use ProQuest?

- UNLIKE the internet, ProQuest contains ONLY the contents that can be referenced for your essays & theses.
  - ⇒ **ProQuest has little 'noise' or irrelevant information.**
- Rich contents provide diverse perspectives.
  - ⇒ **Views for & against regarding a particular idea or a policy**
  - ⇒ **Various views originated in different parts of the world**
  - ⇒ **Historic perspectives on the same topic that changed over the years**
- Sophisticated search functionality that makes efficient information-gathering and research possible.
- The contents are great examples for your writing essays and theses.

## 2. What is ProQuest Central?

### ■ How to access

**Country Economic Forecast** OXFORD ECONOMICS

**Romania**

**Highlights**

- Although quarterly growth slowed to 0.1% in Q1, this followed two very strong quarters and still meant that the economy was 3.8% up on a year earlier, the fastest in the EU. Household consumption was the main driver of economic growth, up 6.6% year-on-year, comfortably its strongest rate since before the global financial crisis. And while Q2 may see some setback for consumption after the sharp rise in Q1, we expect a robust underlying trend in the coming quarters. By contrast, both government consumption and investment contracted in Q1, but the latter should start to pick up soon in response to the marked improvement in both exports and consumer spending over the last year. With regard to the external sector, the likely boost to exports from the gradual Eurozone recovery is likely to be outweighed by faster domestic demand sucking in more imports. Overall, we have raised our 2014 GDP growth forecast to 3% from 2.6% last month.
- CPI inflation was just 0.9% in May, the lowest on record. In large part, the latest decline was driven by
- we do not believe that the central bank will lower the policy interest rate any further (it last cut in February). The central bank attributes recent currency strength to external factors and it believes inflation will pick up in the coming months.
- The IMF remains confident in Romania's ability to implement meaningful structural reform. However, policymakers still need to make a lot of progress if they are to achieve the IMF targets. While Romgaz was privatised last year, energy sector assets Hidroelectrica and Oltenia have yet to be sold off. In addition, despite lively opposition from the IMF, the government will probably implement a 5% cut in the payroll tax rate as it looks to spur growth. Overall, though, the government remains committed to its policy goals and we believe it will continue to work towards meeting its fiscal targets and reform objectives.
- Although we have upgraded Romania's economic prospects, there remain risks from a more severe external crisis, as opposed to the modest Eurozone

### Abstract

This article uses a literature review about postponement, decoupling point and cold chain to offer alternatives for Brazilian distribution of refrigerated chicken. It was possible to conclude that a decoupling point between first and further industrialization can be a viable option for selling and distributing refrigerated chicken that has from seven to maximum of thirty days of shelf life.

## 4. Finding Scholarly Contents Quickly

- How to change the interface language
  - Click the  icon ⇒ ‘日本語’ (Japanese)
  - Select the language of your choice.

The screenshot shows the ProQuest website interface. The user profile icon in the top right corner is highlighted with a red box. A dropdown menu is open, showing the option '日本語' (Japanese) selected, also highlighted with a red box. An arrow points from this selection to a '言語を選択' (Select Language) dialog box. In this dialog box, 'English' is highlighted with a red box. The background shows the ProQuest search page with a search bar and various filters.

## 4. Finding Scholarly Contents Quickly

- Basic Search (the screen upon login)
  - Enter the keyword(s) into the search box.

The screenshot shows the ProQuest Basic Search interface. The search box contains the text "International Trade" and is highlighted with a red border. The search button is also highlighted. The interface includes navigation tabs, filter buttons, and search tips.

- Search the Help documentation

## 4. Finding Scholarly Contents Quickly

### ■ Basic Search & Narrowing Results

- Example 1 : Search with a word 'Aging' and narrow the results.
- Display the newspaper articles published over the last 12 months, of which [Subject] is [economic growth] and [Location] is [Japan].

The screenshot displays the ProQuest search interface. At the top, the ProQuest logo is visible. Below it, there are navigation tabs: Basic Search, Advanced Search, Publications, Browse, and Databases (6). The search bar contains the word "Aging". Below the search bar, there are options for "Full text" and "Peer reviewed". To the right of these options are links for "Modify search", "Recent searches", and "Save search/alert". Below this, there are "Related searches" including "aging", "aging AND older people", and "aging AND index medicus". The search results are displayed as "4,267,441 Results" and "38,772 ebrary e-books". There are options to "Search within" and links for "Cite", "Email", "Print", and "Save". A "Sort" dropdown menu is set to "Relevance". Below the sort menu, there are options for "Narrow results", "Full text", "Peer reviewed", and "Source type". The search results are displayed in a list format. The first result is titled "[Anti-aging or better aging - a contribution to the prevention of aging?]" and is from the "Gynäkologisch-geburtshilfliche Rundschau" journal. The second result is titled "EFFECTS OF INTERACTIONS OF GAMETE AGING" and is from the "University of Illinois at Urbana-Champaign, ProQuest Dissertations Publishing, 1981".

# 4. Finding Scholarly Contents Quickly

## ■ Basic Search & Narrowing Results

- **Narrowing Results ①** : [Limit to] ⇒ Click [Full text].

The screenshot shows a ProQuest search interface. At the top, a search bar contains the term "Aging" and a magnifying glass icon. Below the search bar, it displays "5,011,633 results" and a button "Find ebooks for your search". To the right, there are links for "Modify search", "Recent searches", and "Save search/alert".

On the left side, there are several filter sections:

- Sorted by:** A dropdown menu set to "Relevance".
- Limit to:** A section with two checkboxes: "Full text" (which is highlighted with a red box) and "Peer reviewed".
- Source type:** A list of categories including "Scholarly Journals", "Audio & Video Works", "Dissertations & Theses", "Magazines", and "Books".
- Publication date:** A section with an upward arrow.

The main search results area shows a list of items. At the top, it says "Select 1-20" and "0 Selected items". There are icons for "Cite", "Email", "Print", and "Save".

The first result (numbered 1) is titled "The role of the DLPFC in inductive reasoning of MCI patients and normal agings: An fMRI study" by Yang, Yanhui; Liang, Peipeng; Lu, Shengfu; Li, Kuncheng; Zhong, Ning. It is from "Science in China Series C : Life Sciences; Dordrecht Vol. 52, Iss. 8, (Aug 2009): 789-95." The abstract preview shows: "...MCI patients and normal agings: An fMRI study YANG YanHui1,3,... normal agings, and whether the activation pattern of this region... between MCI patients and normal agings. The fMRI results indicated that...". Below the preview are links for "Abstract/Details" and "Full text - PDF (627 KB)", and a "Preview" dropdown.

The second result (numbered 2) is titled "[Anti-aging or better aging: a contribution to the prevention of aging?]." with alternate title "Anti-Aging oder 'Better Aging'--Ein Beitrag zur Altersungsprävention?" by Haller, U; Hepp, H; Winter, R; National Library of Medicine. It is from "Gynakologisch-geburtshilfliche Rundschau Vol. 43, Iss. 2, : 69-70. (April 2003)". The abstract preview shows: "...Anti-aging wants to influence the quality of the second half of life so that... problem of anti-aging...". Below the preview are links for "Abstract/Details" and a "Preview" dropdown.

The third result (numbered 3) is titled "Exploring the complex relations between inflammation and aging (inflamm-aging): anti-".

**Abstract (summary)**

This paper addresses Japan's economy, its new economic policy package, and the new term - **Abenomics** - that is used to describe the three pillars, or "arrows," of the Abe government's focus on the Japanese economy and on economic policy. The term **Abenomics** is an example of brilliant branding. At the same time it is risky, since it implies Prime Minister Abe's success or failure will depend on the success or failure of **Abenomics**. This paper makes three major points. First, it is far too early to tell whether **Abenomics** will be successful - in ending deflation, bringing about price stability and getting the economy onto a stable, full employment growth path. Second, perhaps the most important change is the shift in people's feelings about Japan's future, from resignation to optimistic hope. However it is not at all clear that this new mindset will become deeply engrained and sustained. Third, we should distinguish between Abe as Prime Minister and **Abenomics**.

## ■ Machine Translation

- Abstract & Full Text (in HTML Format) can be machine-translated.

The screenshot shows the ProQuest interface for a document titled "ABENOMICS: JAPAN PACKAGE" by Patrick, Hugh. The document is categorized under "Economics, Management". The interface includes tabs for "Full text", "Full text - PDF", and "Abstract/Details". A red box highlights the "Abstract" tab, which contains a "Translate" button. A red arrow points from this button to a floating translation window. This window has a title "Abstract" and dropdown menus for "From English" and "To Japanese", along with a "Translate" button. Another red arrow points from the "Translate" button in the floating window to a second "Translate" button located below the abstract text. A third red arrow points from this second button to a large red-bordered box containing the translated Japanese text. At the bottom of the page, it states "Translations powered by LEC." with the LEC logo.

このペーパーは日本の経済、その新しい経済政策パッケージと新しい任期を取り上げます - Abenomics - それが日本の経済と経済政策についてエイブ政府のフォーカスの3本の柱、あるいは「矢」、を記述するために使われます。期間 Abenomics は素晴らしいブランド化の例です。同時に、それがエイブ首相の成功を暗示する、あるいは失敗が Abenomics の成功あるいは失敗に依存するであろうから、それは危険です。このペーパーは3の主要なポイントになります。最初に、それは Abenomics が成功するであろうかどうか言うにはあまりにも早く遠いです - デフレーションを終わらせて、価格安定性を引き起こして、そして安定した、フルの雇用成長経路に経済を得ることにおいて。2番目に、多分、最も重要な変化は、辞表から楽天的な希望まで、日本の未来についての人々の感じの移行です。しかしながら、この新しい固定観念が深く engrainedで、そして持続するであろうことは少しも明確ではありません。第三に、我々は首相としてのエイブと Abenomics を区別するべきです。

## 4. Finding Scholarly Contents Quickly

### ■ Basic Search & Narrowing Results

- Example 3 : Search with **2** words **Syrian & Refugee**
- Let's see the difference between **AND Search** & **Exact-phrase Search**.
  - AND Search: enter Syrian **AND** Refugee or simply Syrian Refugee into the search box.
  - Exact-phrase Search: enclose the 2 words with quotations or “ ” , like “Syrian refugee”.

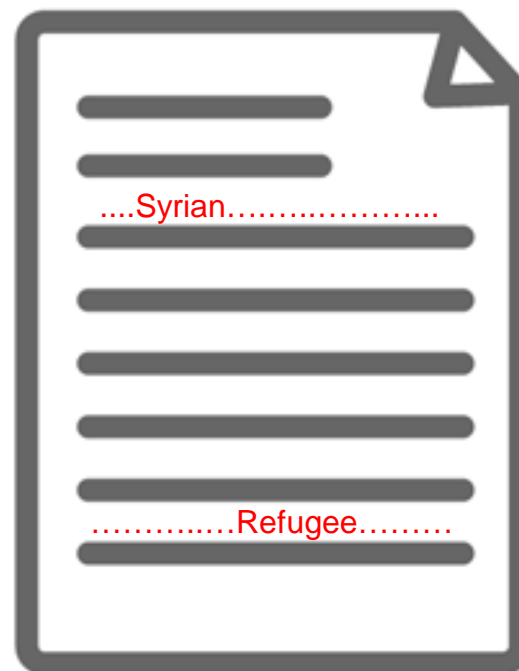

# What is AND SEARCH?

## Search Range of AND SEARCH

The results contain **BOTH** Word 'A' and Word 'B'.

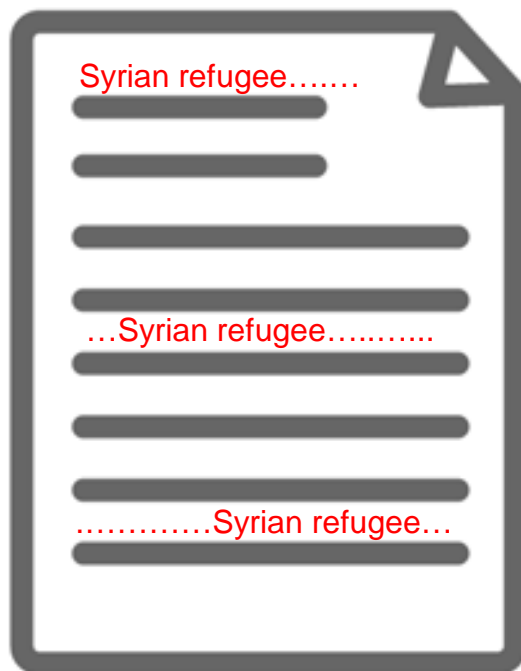

## Image of AND SEARCH

The content has **BOTH** 'Syrian' and 'Refugee' (somewhere).

# What is Exact-phrase SEARCH?

## Image of Exact-phrase SEARCH

The 2 words Syrian Refugee that are enclosed with “ ” are treated as though they are 1 word or a phrase.

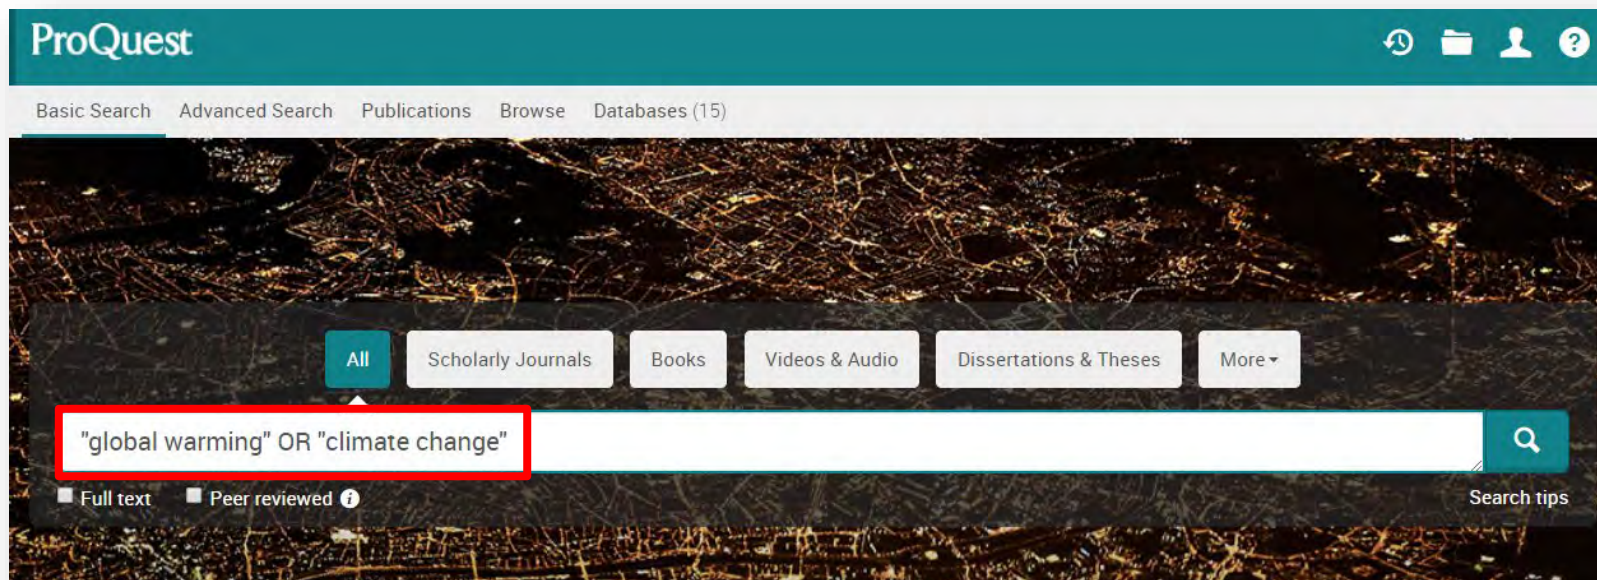

## Examples of Exact-phrase SEARCH

- “gender equality”
- “gravitational wave”
- “internet of things”
- “political economy”
- “to be, or not to be”

## 4. Finding Scholarly Contents Quickly

### ■ Boolean Operators

- Example 4 : Search for documents that contain **Global Warming OR Climate Change**.
- Use **OR Search**
  - OR Search: Connect two words with **OR** like “global warming” **OR** “climate change”.

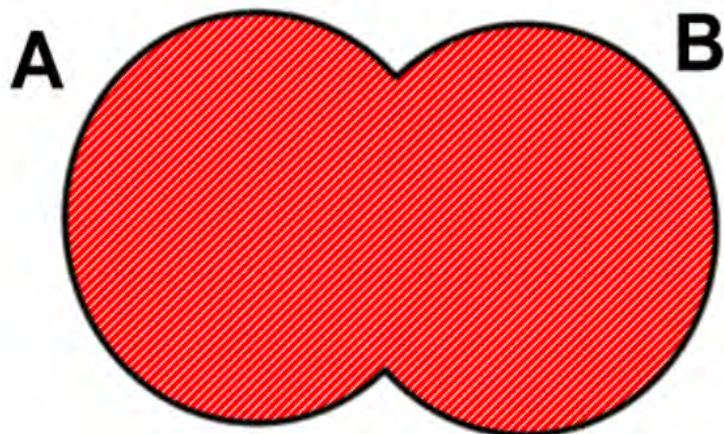

The screenshot displays the ProQuest search interface. At the top, the ProQuest logo is visible on the left, and navigation icons (refresh, folder, user, help) are on the right. Below the logo, a navigation bar includes links for Basic Search, Advanced Search, Publications, Browse, and Databases (15). The main search area features a search bar with the query "global warming" OR "climate change" entered. Above the search bar, there are filter buttons for All, Scholarly Journals, Books, Videos & Audio, Dissertations & Theses, and More. Below the search bar, there are checkboxes for Full text and Peer reviewed. A search tips link is located at the bottom right of the search area.

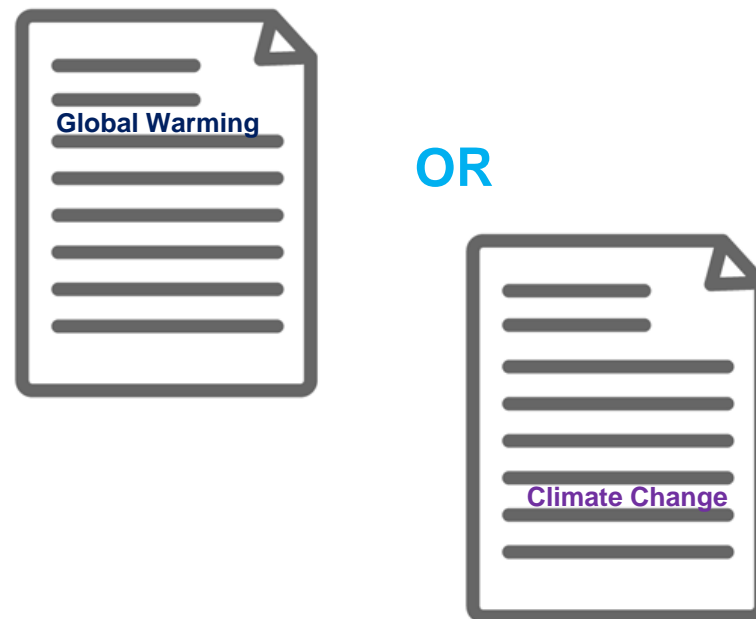

# What is OR SEARCH?

## Search Range of OR SEARCH

The results contain **EITHER** Word 'A' **OR** Word 'B'.

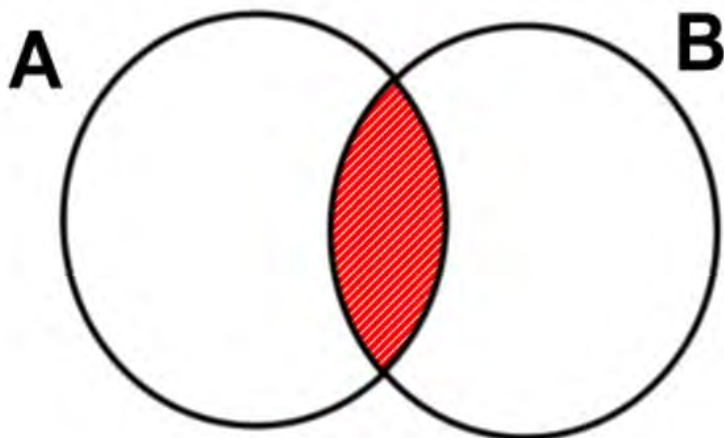

## Image of OR SEARCH

Display all the results that contain **EITHER** 'Global Warming' **OR** 'Climate Change'

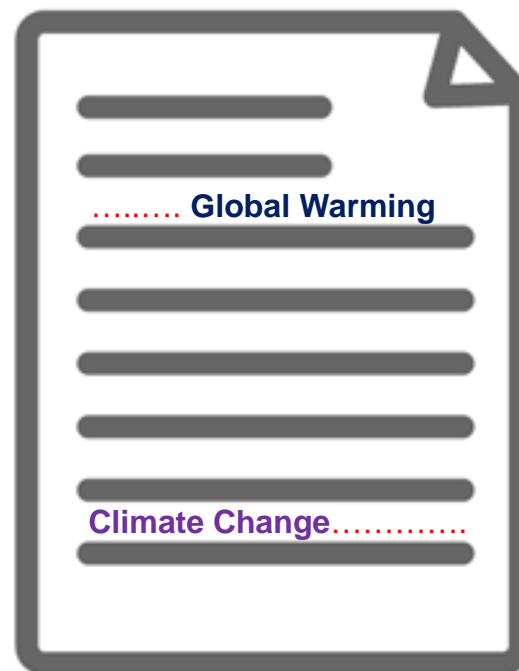

# What is AND SEARCH?

## Search Range of AND SEARCH

The results contain **BOTH** Word 'A' and Word 'B'.

## Image of AND SEARCH

The content has BOTH 'Global Warming' and 'Climate Change' (somewhere).

## 4. Finding Scholarly Contents Quickly

- The difference between Keyword Search & Subject Search
  - Example 5 : Compare the results between the keyword searching and subject searching with a word **Work Life Balance**.
  - For Subject Searching, open [Advanced Search] ⇒ Enter “work life balance” ⇒ **Change the dropdown to [Subject heading - MAINSUBJECT]**

ProQuest

Basic Search **Advanced Search** Publications Browse Databases (15)

Advanced Search Command Line Recent searches Thesaurus Field codes Search tips

"work life balance" in Subject heading - MAINSUBJECT\* [Look up Subjects](#)

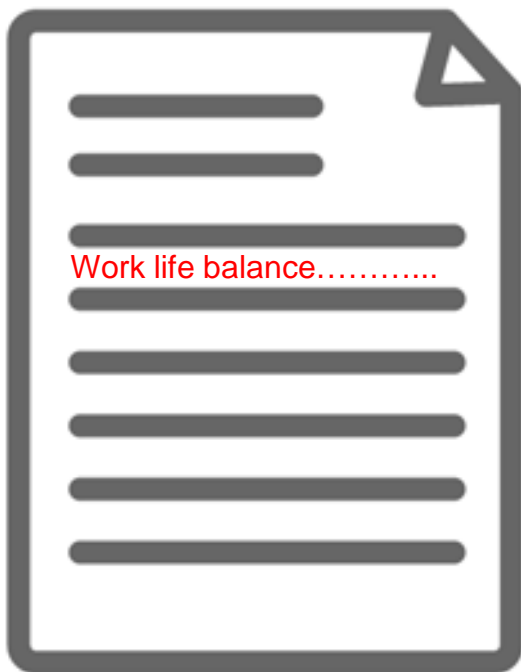

AND in Anywhere

+ Add a row

Limit to:  Full text  Peer reviewed [?](#)

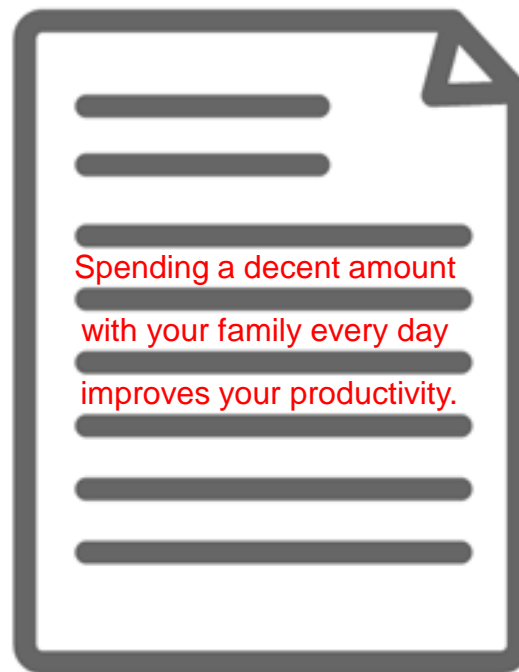

# Keyword Search & Subject Search

## Keyword Search

The content actually **has the keyword(s) in its texts**. However, its main theme may be about different topics.

## Subject Search

The content **may not state the keyword anywhere in the texts**. However, its main theme is about the keyword and therefore the content is strongly relevant.

## 4. Finding Scholarly Contents Quickly

### ■ Advanced Search

- Example 6 : Display the full-text articles published since the beginning of 2018 which subject is Globalization and have either the words 'poverty' or 'inequality' in the titles.

- Subject heading (all) : Globalization
- Document title – TI: Poverty **OR** Inequality
- Limit to: Full text
- Publication date: After this date – January 1<sup>st</sup> 2018

The screenshot shows the ProQuest Advanced Search interface. The search criteria are as follows:

- Search Term 1:** "globalization" (highlighted in red) in the field "Subject heading (all) – SU" (highlighted in red).
- Search Term 2:** "poverty OR inequality" (highlighted in red) in the field "Document title – TI" (highlighted in red).
- Limit to:** "Full text" (checked) and "Peer reviewed" (unchecked).
- Publication date:** "After this date..." (highlighted in red) with a dropdown menu set to "January", "1", and "2017" (highlighted in red).

Buttons for "Search" and "Clear form" are visible at the bottom right.

## 4. Finding Scholarly Contents Quickly

### ■ Search by Author's Name

- Example 7 : Search for the articles on iPS cells by Prof. Shinya Yamanaka.

Advanced Search [Command Line](#) [Recent searches](#) [Thesaurus](#) [Field codes](#) [Search tips](#)

"Yamanaka, Shinya" in **Author – AU** [Look up Authors](#)

AND  iPS in Anywhere

- Document title: `cancer`
- Publication date: Last 12 months

## 4. Finding Scholarly Contents Quickly

- Find journals in a specific subject
  - Enter the subject term and set [In subject] in the drop down of [Publication] page
  - You can search subjects from [Look up subjects]

The screenshot shows the ProQuest website interface for a publication search. The top navigation bar includes 'Basic Search', 'Advanced Search', 'Publications' (highlighted with a red box), 'Browse', and 'Databases (6)'. The main heading is 'Publication Search: Full text only'. Below this, there is a search input field containing 'Business' (highlighted with a red box) and a dropdown menu set to 'In subject' (highlighted with a red box). A 'Search' button is to the right. Below the search area, the results are displayed as '4,729 publications'. On the left, there is a 'Narrow publications list' sidebar with filters for 'Source type' (Scholarly Journals, Reports, Trade Journals, Magazines, Wire Feeds) and 'Publication subject'. The main results area shows three items, each with a 'Full text available' icon and a list of metadata including 'Full text coverage', 'Citation/Abstract coverage', 'Publisher', 'ISSN', and 'Place of publication'.

# 5. Creating Bibliography

- Tick the boxes on the left side of result documents  
⇒ [Cite]

- Select the Citation style from the drop down & click [Change]
- Please copy the result texts of bibliography to your document

The screenshot shows the ProQuest interface with a list of selected items on the left and a 'Cite' dialog box on the right. The 'Cite' dialog box is open, showing the citation style set to 'Harvard - British Standard' and a list of selected items ready to be copied into a document.

**Selected items:**

# 6. Exporting Data to RefWorks

- Tick the boxes on the left side of result documents ⇒ [Save] ⇒ [RefWorks]

The screenshot illustrates the workflow for exporting data from ProQuest to RefWorks. On the left, the ProQuest interface shows a list of search results under the heading "Selected items". Three items are visible, each with a checkbox on the left. The "Save" button in the top right of the list is highlighted with a red box. A dropdown menu is open, showing options like "Save to My Research", "Export/Save", "RefWorks", "EasyBib", "HTML", "PDF", "RIS (works v)", "RTF (works v)", "Text only", and "XLS (works v)". The "RefWorks" option is highlighted with a red box, and a red arrow points from it to the RefWorks interface on the right. The RefWorks interface shows a list of references with columns for Ref ID, Article Title, Source, and Folders. The first three references are visible, corresponding to the items selected in the ProQuest interface.

# 7. Saving Documents & Search Strategies

## ■ Using My Research

① Click [My Research] on the top right

The screenshot shows the ProQuest website interface. At the top right, a user profile icon is highlighted with a red box. A dropdown menu is open, showing options: 'Sign in to My Research' (highlighted with a red box), 'Exit ProQuest', and 'English'. Below the header, the main content area is titled 'Welcome to My Research!'. On the left, there is a section titled 'Existing user - Sign in' (highlighted with a red box) containing 'Username:' and 'Password:' input fields, a 'Forgot your password?' link, and a 'Sign in' button. On the right, there is a section titled 'New to My Research?' with a 'Create a My Research account' button (highlighted with a red box). The page also features a search bar and navigation links like 'Publications', 'Browse', and 'Databases (5)'.

② Those who **without** My Research Account ⇒ [Create a My Research Account]  
 Those who with My Research Account ⇒ Enter your Username & Password and Sign in

# 7. Saving Documents & Search Strategies

## ■ Saving Search Strategies & Creating Alerts

~~Tick the boxes on the left → [Save to My Research]~~

- **For saving documents, using RefWorks is highly recommended!**
- [Save search] for saving your search strategy
- [Creating alert] allows you to receive the latest result documents under your strategy via e-mail

The screenshot displays the ProQuest search interface. At the top, the search bar contains the query "su(Health Informatics) AND (Process OR Workflow)". Below the search bar, there are filters for "Full text" and "Peer reviewed", and a "Modify search" button. A dropdown menu is open, showing options: "Save search/alert", "Save search", "Create alert", "Create RSS feed", and "View recent searches".

The search results show 248 results, with 13 ebrary e-books. The first two results are highlighted with red boxes and checkboxes:
 

- Result 1: "Public Health; Investigators at University of Washington Health (Modeling workflow to design machine translation health practice)" from the Journal of Engineering (Apr 22, 2015): 894.
- Result 2: "Information Technology; Reports Outline Electronic Medicine Findings from Geisinger Health System (Impact of electronic technology on the work and workflow of physicians in Computers, Networks & Communications (Jul 9, 2015): 187.

For the first result, a red dashed box highlights the "Save to My Research" option in the "More" menu. Another red box highlights the "RefWorks" option in the "Export/Save" menu. The "More" menu also includes options for Cite, Email, Print, and EasyBib.

## 8. LibGuides & YouTube Videos

### ■ Find more information from our LibGuides

- <http://proquest.libguides.com/pqc>

The screenshot displays the ProQuest Central website interface. At the top, the ProQuest logo and the URL 'proquest.libguides.com' are visible. Navigation links include 'About Us', 'Webinars', and 'Terms of Use'. A search bar is located on the right side of the header.

The main content area is titled 'ProQuest Central: About' and includes a search bar with the placeholder text 'Enter Search Words' and a 'Search' button. Below the title, there is a navigation menu with the following items: 'About', 'ProQuest Platform Search Tips', 'Searchable Fields', 'ProQuest Results', 'Document View', 'My Research', 'Sample Searches', and 'Additional Materials'.

The 'Product Upgrades' section contains the following text:
 

ProQuest has hundreds of our products that touch the research lifecycle including many that are getting upgrades late this summer and fall. To be informed about **upcoming changes**, watch this page: <http://www.proquest.com/productupgrades> and **sign up for updates**; we will post new information as it becomes available. To keep up with the upgrades, our LibGuides are also being updated, so this LibGuide may not match the interface you see for a short while.

[Sign up here for a webinar](#) to find out more about the changes .

The 'Components' section lists the following items:
 

- ABI/INFORM Complete (ABI/INFORM® Global, ABI/INFORM Dateline, ABI/INFORM Trade & Industry) [Link to ABI/INFORM LibGuide](#)
- Canadian Business & Current Affairs Complete (CBCA)
- Canadian Newsstand Complete
- Criminal Justice Periodicals
- Pharmaceutical News Index®
- ProQuest Accounting & Tax Database™
- ProQuest Asian Business and Reference™
- ProQuest Banking Information Source™
- ProQuest Biology Journals
- ProQuest Career & Technical

The 'What is ProQuest Central?' section includes the following text:
 

*ProQuest Central* is the largest, multidisciplinary, full-text database available in the market today. This resource provides access to 30 of ProQuest's most highly used databases, with a variety of content types across over 160 subjects, making this the broadest single research resource in the world. ProQuest Central won the Software & Information Industry Association (SIIA) 2010 CODIE Award for *Best Online General Reference Service*.

While ProQuest Central provides access to millions of much-coveted full text articles from thousands of scholarly journals, it also provides access to information not available in other aggregated resources such as:

- Over 70,000 full text dissertations in the areas of business, psychology, physical sciences, health, education and more
- Over 90,000 working papers from providers such as SSRN
- Thousands of up-to-date market and industry reports, and country profiles
- The most comprehensive collection of market, industry, and economic reports available on the market today

The ProQuest platform is optimized to provide deep subject access, as well as the best interdisciplinary cross-search for many levels of users. ProQuest Central is also enabled with

The 'Live Webinars & Recordings' section contains the following text:
 

- Register for a webinar or listen to a recorded session on ProQuest Central

The 'ProQuest Platform Videos' section features a video player with the title '1/6 Basic' and a play button icon.

**What is RefWorks?**

In a world of e-research, there are more data sources available than ever, which means researchers need highly efficient ways to manage vast amounts of information easily. **RefWorks** is a powerful online research management, writing and collaboration tool designed to help researchers at all levels easily gather, organize, store and share all types of information and to instantly generate citations and bibliographies.

## 8. LibGuides & YouTube Videos

- RefWorks on-line course is available on YouTube
  - <https://www.youtube.com/user/ProQuestRefWorks>

The screenshot displays the YouTube channel page for ProQuestRefWorks. At the top, the YouTube logo and search bar are visible. The channel banner features a group of diverse people and the RefWorks logo. Below the banner, the channel name 'ProQuestRefWorks' is prominently displayed, along with a '登録済み' (Subscribed) button. A navigation menu includes 'ホーム' (Home), '動画' (Videos), '再生リスト' (Playlists), 'チャンネル' (Channels), 'フリートーク' (Live Chat), and '概要' (About). The main content area is divided into two sections: '次のおすすめ' (Next Recommended) and '関連チャンネル' (Related Channels). The '次のおすすめ' section shows four video thumbnails with their respective titles and durations: 'Google Docs Add-on for ProQuest Flow' (4:48), 'Flow for Google Docs' (0:45), 'Introducing ProQuest Flow' (4:15), and 'Migrating Your Research From RefWorks To Flow' (3:00). The '関連チャンネル' section lists three related channels: 'EndNoteTraining', 'The Tonight Show...', and 'GameGrumps', each with a 'チャンネル登録' (Subscribe) button.
