1. What is ProQuest Platform?

- How to change the interface language
 - Click the  icon ⇒ ‘日本語’ (Japanese)
 - Select the language of your choice.

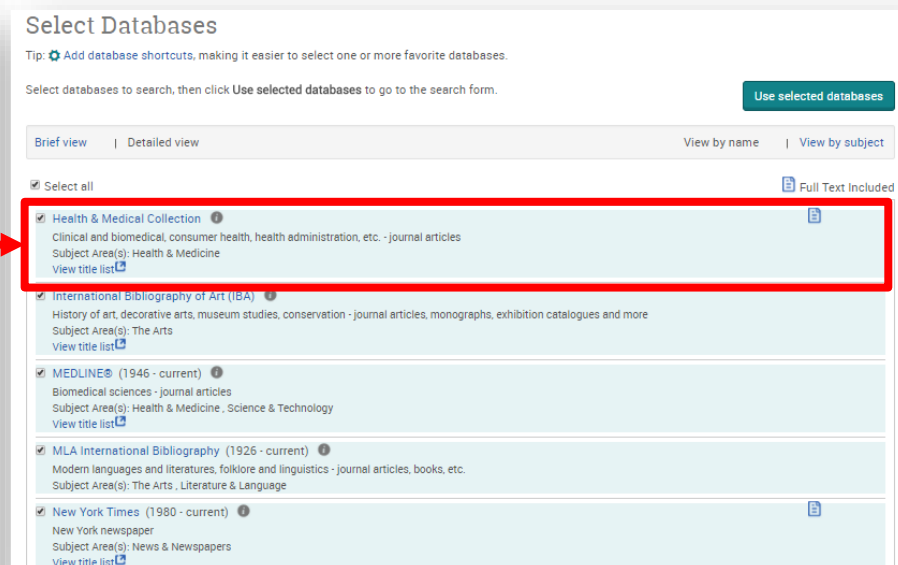

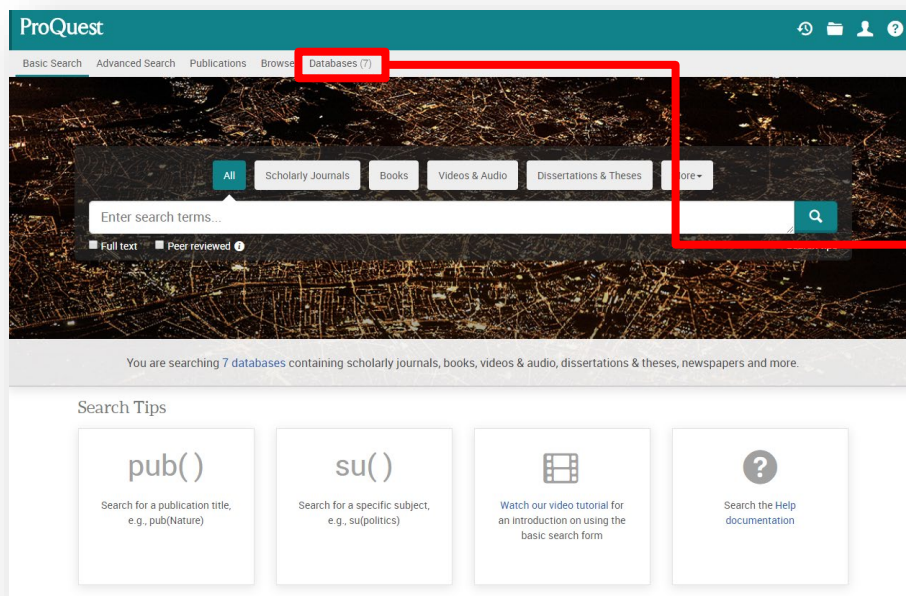

The screenshot shows the ProQuest website interface. At the top right, there is a user icon (a person silhouette) which is highlighted with a red box. Below it, a dropdown menu is open, showing options like 'マイリサーチにサインイン' (Sign in to My Research) and 'ProQuestを終了' (Log out of ProQuest). The '日本語' (Japanese) option is highlighted with a red box. A red arrow points from this box to a '言語を選択' (Select Language) dialog box. This dialog box lists various languages, with 'English' highlighted by a red box. The background of the website shows a search bar, navigation tabs, and a list of databases.

Difference between “Platform” & “Database”

- ProQuest is a useful **academic information platform** – its interface can cross-search different databases of subjects, newspapers, and scholarly journals, dissertations & theses together.
- However, business-specific ABI/Inform Collection can be searched as a stand-alone database to use its unique, expert search functionality.

Platform cross-searches all the databases at once !

Individual databases allow more specialized search !

Subscribed Databases at University of Tsukuba

- The ProQuest platform cross-searches all the following **36 subscribed databases** at University of Tsukuba
 - Ebook Central
 - ERIC (1966 - current)
 - Library & Information Science Collection (1969 - current)
 - Library & Information Science Abstracts (LISA) (1969 - current)

 - MEDLINE® (1946 - current)
 - **ProQuest Central (1970 - current)**
 - **ABI/INFORM Collection (1971 - current)**
+ 38 Other Databases within the ProQuest Central package
 - **ProQuest Dissertations & Theses Global**
 - PTSDpubs (1871 - current)

Why do we use library's databases?

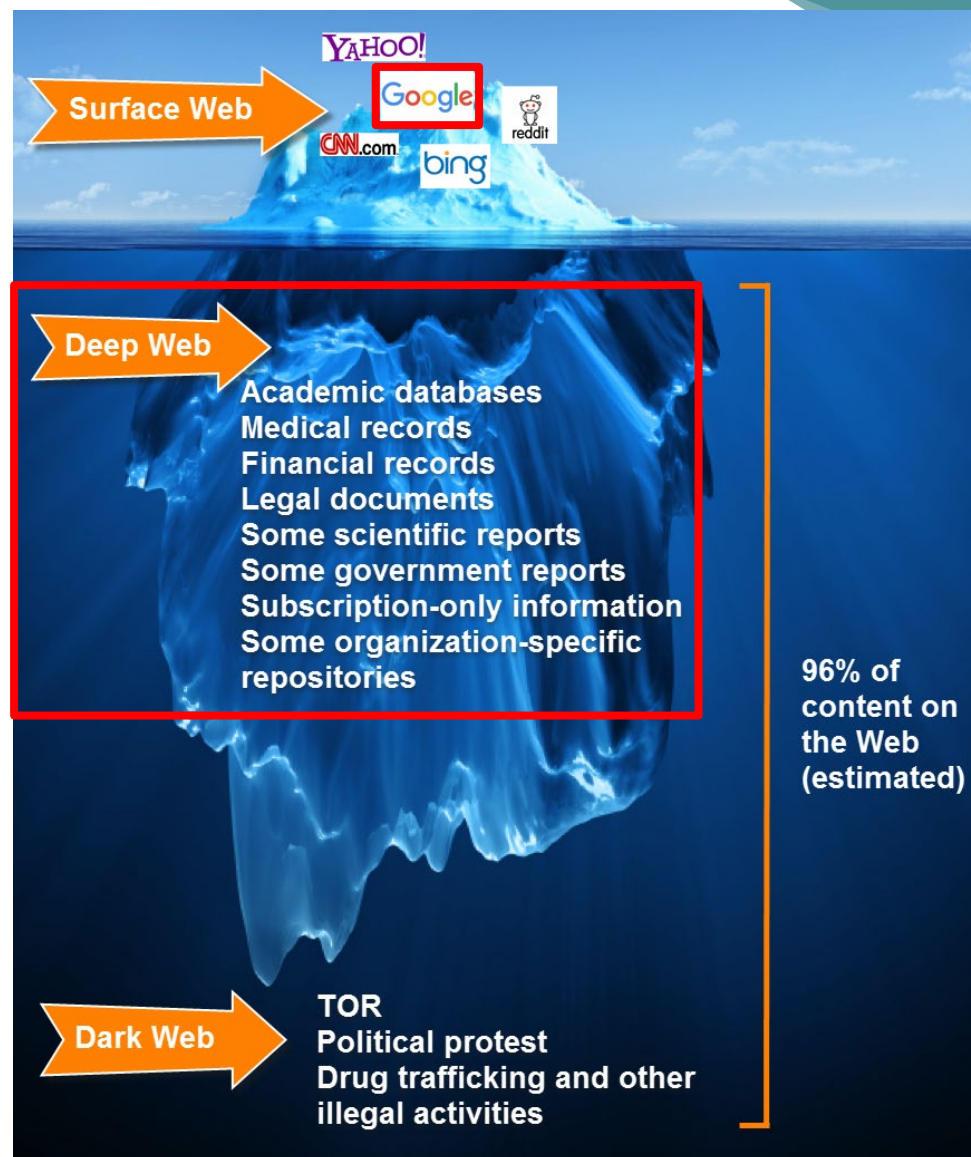

■ Contents on the Web

- “Surface Web”
- **“Deep Web”**
- “Dark Web”

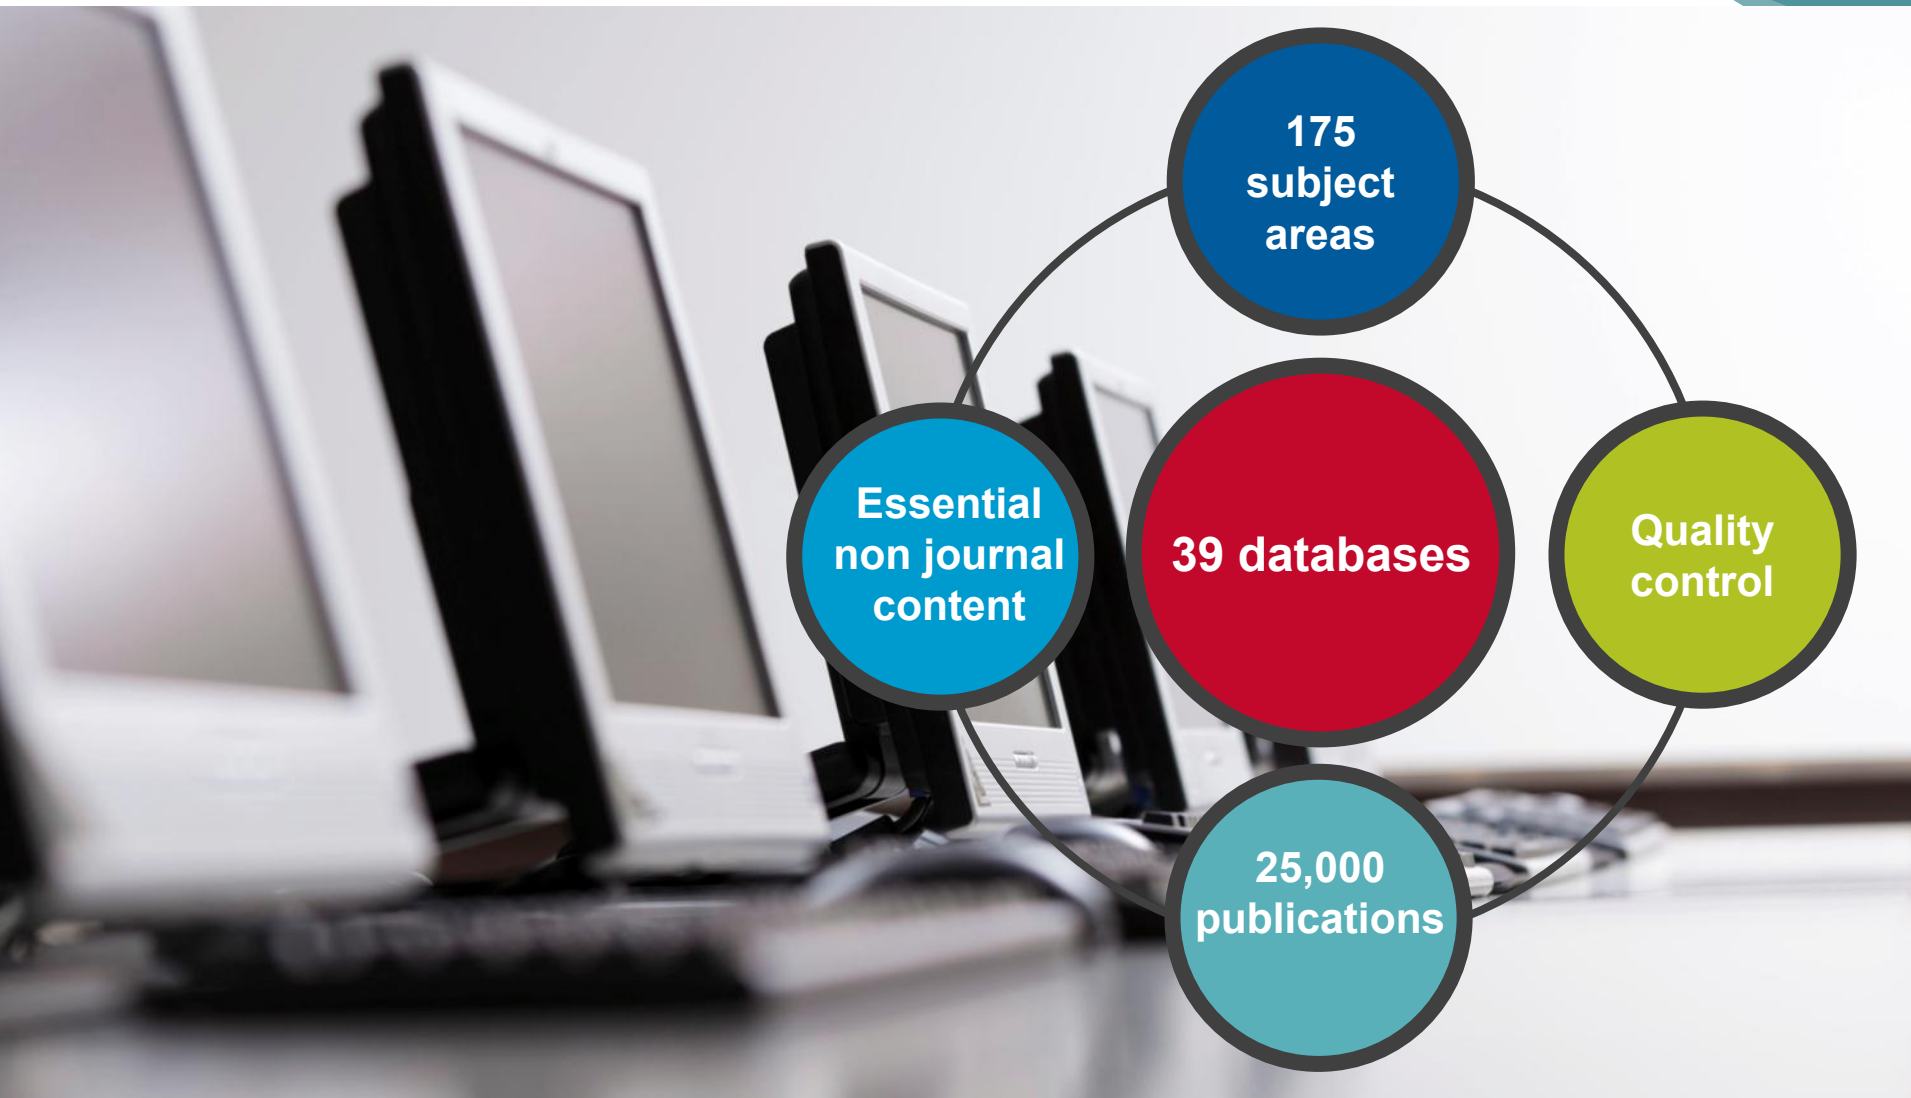

96% of content on the Web are estimated to be outside of the surface web = **they cannot be searched on Google, Yahoo, Bing, etc.**

Highlights

- Although quarterly growth slowed to 0.1% in Q1, this followed two very strong quarters and still meant that the economy was 3.8% up on a year earlier, the fastest in the EU. Household consumption was the main driver of economic growth, up 6.6% year-on-year, comfortably its strongest rate since before the global financial crisis. And while Q2 may see some setback for consumption after the sharp rise in Q1, we expect a robust underlying trend in the coming quarters. By contrast, both government consumption and investment contracted in Q1, but the latter should start to pick up soon in response to the marked improvement in both exports and consumer spending over the last year. With regard to the external sector, the likely boost to exports from the gradual Eurozone recovery is likely to be outweighed by faster domestic demand sucking in more imports. Overall, we have raised our 2014 GDP growth forecast to 3% from 2.8% last month.
- CPI inflation was just 0.9% in May, the lowest on record. In large part, the latest decline was driven by

- we do not believe that the central bank will lower the policy interest rate any further (it last cut in February). The central bank attributes recent currency strength to external factors and it believes inflation will pick up in the coming months.
- The IMF remains confident in Romania's ability to implement meaningful structural reform. However, policymakers still need to make a lot of progress if they are to achieve the IMF targets. While Romgaz was privatised last year, energy sector assets Hidroelectrica and Oltenia have yet to be sold off. In addition, despite likely opposition from the IMF, the government will probably implement a 5% cut in the payroll tax rate as it looks to spur growth. Overall, though, the government remains committed to its policy goals and we believe it will continue to work towards meeting its fiscal targets and reform objectives.
- Although we have upgraded Romania's economic prospects, there remain risks from a more severe Eurozone crisis, a reversal to the outdated Eurozone

Abstract

This article uses a literature review about postponement, decoupling point and cold chain to offer alternatives for Brazilian distribution of refrigerated chicken. It was possible to conclude that a decoupling point between first and further industrialization can be a viable option for selling and distributing refrigerated chicken that has from seven to maximum of thirty days of shelf life.

Abstract (summary)

This paper addresses Japan's economy, its new economic policy package, and the new term - **Abenomics** - that is used to describe the three pillars, or "arrows," of the Abe government's focus on the Japanese economy and on economic policy. The term **Abenomics** is an example of brilliant branding. At the same time it is risky, since it implies Prime Minister Abe's success or failure will depend on the success or failure of **Abenomics**. This paper makes three major points. First, it is far too early to tell whether **Abenomics** will be successful - in ending deflation, bringing about price stability and getting the economy onto a stable, full employment growth path. Second, perhaps the most important change is the shift in people's feelings about Japan's future, from resignation to optimistic hope. However it is not at all clear that this new mindset will become deeply engrained and sustained. Third, we should distinguish between Abe as Prime Minister and **Abenomics**.

このペーパーは日本の経済、その新しい経済政策パッケージと新しい任期を取り上げます - Abenomics - それが日本の経済と経済政策についてエイブ政府のフォーカスの3本の柱、あるいは「矢」、を記述するために使われます。期間 Abenomics は素晴らしいブランド化の例です。同時に、それがエイブ首相の成功を暗示する、あるいは失敗が Abenomics の成功あるいは失敗に依存するでしょうから、それは危険です。このペーパーは3の主要なポイントになります。最初に、それは Abenomics が成功するであろうかどうか言うにはあまりにも早く遠いです - デフレーションを終わらせて、価格安定性を引き起こして、そして安定した、フルの雇用成長経路に経済を得ることにおいて。2番目に、多分、最も重要な変化は、辞表から楽天的な希望まで、日本の未来についての人々の感じの移行です。しかしながら、この新しい固定観念が深く engrainedで、そして持続するであろうことは少しも明確ではありません。第三に、我々は首相としてのエイブと Abenomics を区別するべきです。

- Example 3 : Search with **2** words **Blue Ocean**
- Let's see the difference between **AND Search** & **Exact-phrase Search**.
 - AND Search: enter **Blue AND Ocean** or simply **Blue Ocean** into the search box.
 - Exact-phrase Search: enclose the 2 words with quotations or “ ” , like “**Blue Ocean**”.

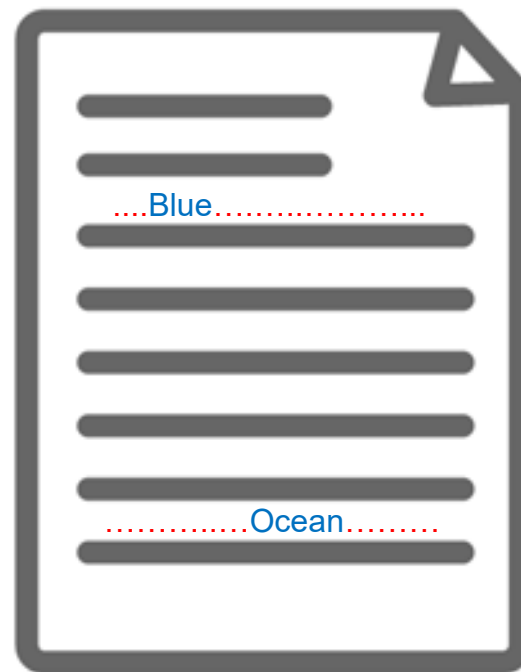

What is AND SEARCH?

Search Range of AND SEARCH

The results contain **BOTH** Word 'A' and Word 'B'.

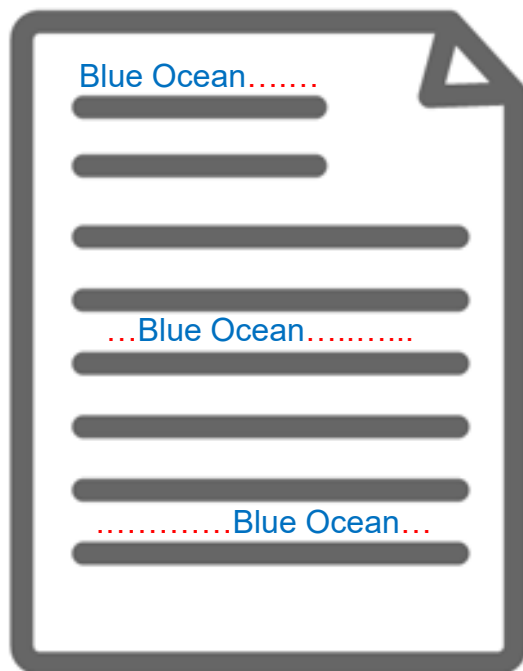

Image of AND SEARCH

The content has BOTH 'Blue' and 'Ocean' (somewhere).

What is Exact-phrase SEARCH?

Image of Exact-phrase SEARCH

The 2 words Blue Ocean that are enclosed with “ ” are treated as though they are 1 word or a phrase.

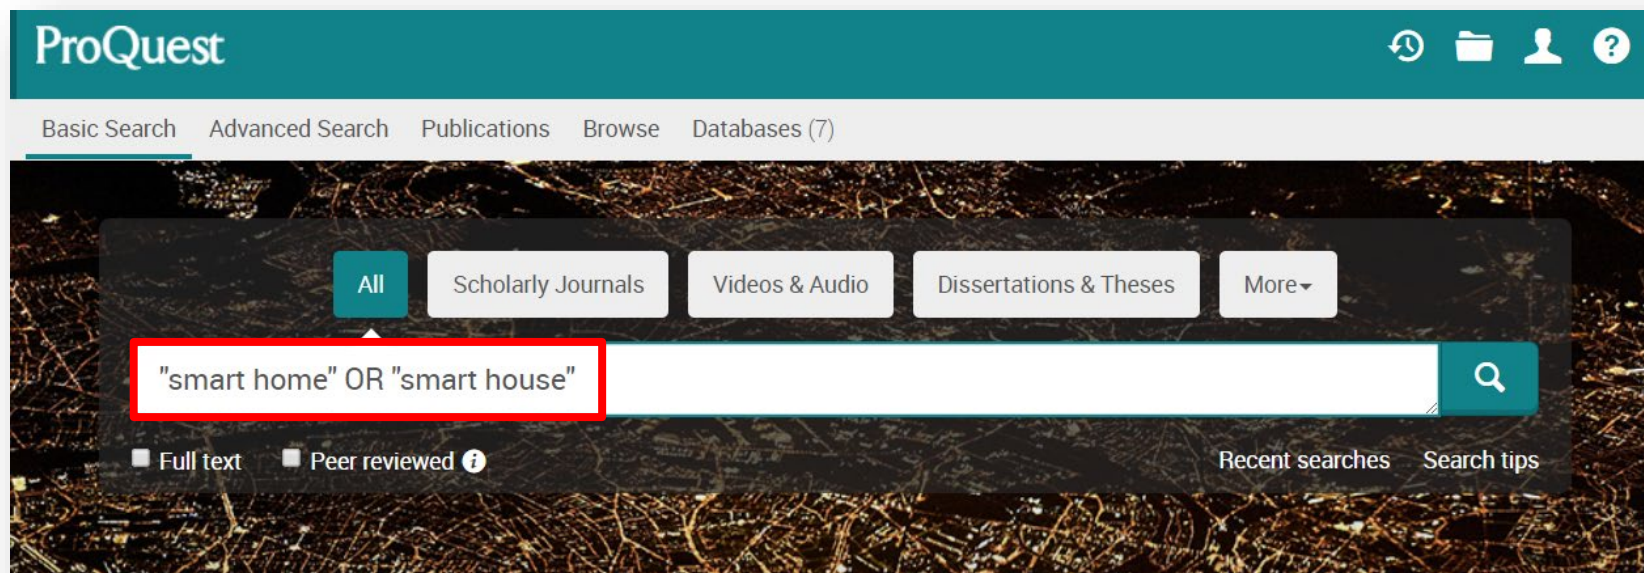

Examples of Exact-phrase SEARCH

- “gender equality”
- “gravitational wave”
- “internet of things”
- “political economy”
- “to be, or not to be”

4. Cross Search on ProQuest Platform

■ Search by Author's Name

- Example 6 : Search for the articles on iPS cells by Prof. Shinya Yamanaka.

The screenshot shows the ProQuest Advanced Search interface. At the top, there are tabs for 'Command Line', 'Recent searches', 'Thesaurus', 'Field codes', and 'Search tips'. The 'Command Line' tab is selected. Below the tabs, there is a search input field containing the text '"Yamanaka, Shinya"'. To the right of the input field is a dropdown menu labeled 'in' with the selected option 'Author – AU'. A red rectangle highlights this dropdown menu. Below the input field, there is a button labeled 'Look up Authors'. Further down, there is a section for 'AND' with a dropdown menu showing 'AND' and a search input field containing 'iPS'. To the right of this field is another dropdown menu labeled 'in' with the selected option 'Anywhere'. Below this section, there is a button labeled '+ Add a row'. At the bottom, there is a 'Limit to:' section with checkboxes for 'Full text' and 'Peer reviewed'. Below that, there is a 'Publication date:' section with a dropdown menu showing 'All dates'. At the bottom right, there are two buttons: 'Search' and 'Clear form'.

- **Author – AU** :

What is ProQuest Central?

ProQuest Central is the largest, multidisciplinary, full-text database available in the market today. This resource provides access to 30 of ProQuest's most highly used databases, with a variety of content types across over 160 subjects, making this the broadest single research resource in the world. ProQuest Central won the Software & Information Industry Association (SIIA) 2010 CODIE Award for **Best Online General Reference Service**.

While ProQuest Central provides access to millions of much-coveted full text articles from thousands of scholarly journals, it also provides access to information not available in other aggregated resources such as:

- Over 70,000 full text dissertations in the areas of business, psychology, physical sciences, health, education and more
- Over 90,000 working papers from providers such as SSRN
- Thousands of up-to-date market and industry reports, and country profiles
- The most comprehensive collection of market, industry, and economic reports available on the market today

The ProQuest platform is optimized to provide deep subject access, as well as the best interdisciplinary cross-search for many levels of users. ProQuest Central is also enabled with
