How to change ProQuest's interface language

- Click the  icon ⇒ ‘日本語’ (Japanese)
- Select the language of your choice.

The screenshot shows the ProQuest website interface. In the top right corner, the user profile icon is highlighted with a red box. A dropdown menu is open, showing options like 'マイリサーチにサインイン', 'マイリサーチアカウントを作成', 'Bookshelf', 'ProQuestを終了', and '日本語'. The '日本語' option is highlighted with a red box. A red arrow points from the '日本語' box to a separate window titled '言語を選択' (Select Language). This window lists various languages, with 'English' highlighted by a red box. Below the main content area, there are four cards providing help and guidance on using the search features.

Abstract

This article uses a literature review about postponement, decoupling point and cold chain to offer alternatives for Brazilian distribution of refrigerated chicken. It was possible to conclude that a decoupling point between first and further industrialization can be a viable option for selling and distributing refrigerated chicken that has from seven to maximum of thirty days of shelf life.

Reverse innovation is not always either foreseeable or explicitly pursued by Western companies operating in emerging markets. It arises from the initiative of the foreign subsidiary and results when products initially developed in the emerging market threaten the primary market of the parent company. This has been the case for Speres, a company that developed a product exclusively for the Chinese market that, surprisingly, was eventually adopted in the market for which it was developed. The development of the product presented challenges at both the subsidiary and the corporate levels.

What is 'Peer Review'?

“The process of obtaining impartial opinions from the research and academic community in order to ascertain whether papers submitted for publication in journals or at conferences are of a suitable standard.

The opinions are sought by publishers and conference organizers, and are requested from those whose expertise and stature are similar to the author’s.”

Prytherch, R. J. (2005). *Harrod's librarians' glossary and reference book: A directory of over 10,200 terms, organizations, projects and acronyms in the areas of information management, library science, publishing and archive management* (10th ed.). Aldershot: Ashgate.

Abstract (summary)

Background

Since the start of the Covid-19 pandemic the mental health of children and young people across the country has been affected. The ongoing uncertainty during the pandemic has made normality a thing of the past. The burden of this has created an escalation of worsening mental health diagnoses and created a new population with new mental health issues.

Children's mental health week is celebrated every year in the hospital. This year, given the pandemic restrictions, new ways of raising awareness of children's mental health was sought with using social media outlets.

The abstract text is partially visible, mentioning 'The coronavirus disease 2019 (COVID-19) pandemic has brought significant changes to the life of the Christian church in Indonesia. Such changes can degrade the essence of the fellowship reality of the COVID-19 pandemic, which became the church's starting point, has triggered a pattern of carrying out its duties and services to the people and their environment. The church needs to reinvent and transform its ministry innovations as a living organisation. The church needs to reintroduce the effectiveness of its presence through adapting new service patterns, namely onsite services or hybrid services, to remain relevant to every dimension of rapid change in all aspects of life. This research study analyses the actualisation of church ecclesiology in the midst and after the pandemic. Using descriptive qualitative methods with interactive data analysis from Miles and Huberman, the following points have been found: (1) virtual ministry as a church reality, (2) a pneumatic ministry as a church reality, (3) a pneumatic ministry as a church reality, (4) a pneumatic ministry as a church reality. Introduction

Since the coronavirus disease 2019 (COVID-19) pandemic, church services have changed drastically, which requires the church to adapt quickly to provide the best service. Restrictions on worship in church buildings during the pandemic and compliance with the application of health protocols are the obligations of each individual for the creation of joint health in the community. Empirical facts show that many churches are not ready to implement life in the new normal (Manguma 2021). The activities originally carried out onsite in the church building have now almost all shifted to a technology-based virtual world. It is undeniable that the availability of the latest technological devices and the skills to use them are also significant needs that must be met. Churches have appeared in almost every digital medium, including e-mail, websites, internet forums, videos and social networking sites (Hutchings 2013). Fellowships and congregation meetings are now commonly held online via Zoom, YouTube, Instagram, Facebook, Google Meet and other link-based platforms (Singarimbun 2021). Filters to narrow down search result

Narrowing Results ⑥ : Applied narrow-down filters can be cleared easily by clicking  = You can try to narrow down your results with various terms and access more relevant contents quickly.

The screenshot displays a search interface with a left sidebar for filters and a main area for search results. In the sidebar, the 'Applied filters' section includes 'Scholarly Journals', 'Last 10 Years', and 'political activism', each with a clear icon. A red box highlights these filters, and another red box highlights the 'Clear all filters' button. Below this, the 'Sorted by' dropdown is set to 'Relevance'. The 'Limit to' section has 'Full text' checked. The 'Source type' section has 'Scholarly Journals' selected, with a red box around its clear icon. The 'Publication date' section shows 'Last 12 Months' and 'Last 5 Years' options. The main results area shows three items, each with a thumbnail, title, author, journal, volume/issue, and date. The first item is 'Walking in the Periphery: Activist Art and Urban Resistance to Neoliberalism in Istanbul' by Türeli, Ipek; Al, Meltem, published in 'Review of Middle East Studies; Tucson' Vol. 52, Iss. 2, (Nov 2018): 310-333. The second item is 'Indigenous Womanhood, Precarity and the Nation State: An Arts-based Performance that offers a New Pathway to Reconciliation' by Murphy, Tracey, published in 'Liminalities; Tampa' Vol. 14, Iss. 3, (2018): 89-108. The third item is 'Critical Prison Studies: Review of a Field' by Seigel, Micol, published in 'American Quarterly; College Park' Vol. 70, Iss. 1, (Mar 2018): 123-137. Each result has links for 'Abstract/Details', 'Full text', and 'Full text - PDF'. A 'Show Abstract' button is also present for each result.

Boolean Operator #1 – AND Search & Exact Phrase Search

Search Example 3 : Search with a keyword **International Law**.

- Let's see the difference between **AND Search** & **Exact-phrase Search**.
- **AND Search** : type **international law** into the search box.
- **Exact-phrase Search** : enclose the 2 words with double quotation marks “ ”, like **“international law”**

The screenshot shows the ProQuest search interface. At the top, there are navigation links: Basic Search (underlined), Advanced Search, Publications, Browse, and Change Databases (275). Below these is a search bar with a dropdown menu showing 'All', 'Scholarly Journals', 'Books', 'Videos & Audio', 'Dissertations & Theses', and 'All source types'. The search bar itself contains the text "international law" in quotation marks, which is highlighted with a red rectangle. To the right of the search bar is a magnifying glass icon. Below the search bar, there are checkboxes for 'Full text' and 'Peer reviewed' with an information icon. At the bottom right, there are links for 'Recent searches' and 'Search tips'.

What is AND SEARCH?

Search Scope of AND SEARCH

The results contain **BOTH** Word 'A' and Word 'B'.

Image of AND SEARCH

The content has BOTH 'international' and 'law' (somewhere).

What is Exact-phrase SEARCH?

Image of Exact-phrase SEARCH

The 2 words **International Law** that are enclosed with “ ” are treated as though they are 1 word or a phrase.

Examples of Exact-phrase SEARCH

- “discourse analysis”
- “gender equality”
- “internet of things”
- “gravitational wave”
- “to be, or not to be”

Boolean Operators #2 – OR Search

Search Example 4 : Search for documents that contain EITHER
Climate Change **OR** **Climate Crisis**

- **OR Search** : Connect two words with the operator ‘OR’ like
“climate change” OR “climate crisis”.

The screenshot shows the ProQuest search interface. At the top, there are navigation links: Basic Search (underlined), Advanced Search, Publications, Browse, and Change Databases (275). Below these are filters for source types: All (highlighted in teal), Scholarly Journals, Books, Videos & Audio, Dissertations & Theses, and All source types (with a dropdown arrow). The search bar contains the text “climate change” OR “climate crisis”, which is highlighted by a red rectangular box. To the right of the search bar is a teal search button with a magnifying glass icon. Below the search bar, there are checkboxes for Full text and Peer reviewed (with an information icon). On the right side, there are links for Recent searches and Search tips.

The screenshot shows the Tulips Linker interface. At the top, there's a header with the University of Tsukuba Library logo and the text 'Tulips Linker'. Below this, a search result is displayed for the article 'Choosing pandemic parameters for pandemic preparedness planning: A comparison of pandemic scenarios prior to and following the influenza A(H1N1) 2009 pandemic' by van der Weijden, Charlie P; Stein, Mart L; Jacobi, André J; Kretzschmar, M et al. The article is from 'Health policy (Amsterdam, Netherlands) Vol. 109, Iss. 1, (January 2013)'. The interface includes links for 'Abstract/Details', 'Cited by (4)', and 'References (70)'. A red box highlights the 'Tulips Linker' logo, and a red arrow points from it to the 'Full Text Online' button. The 'Full Text Online' button is also highlighted with a red box. To the right of the button, there's a link to 'from ScienceDirect Freedom Collection 2021'. Below the button, there are links for 'Browse Journal', '01/01/1995 - present', and 'View terms of use for the above results.'. At the bottom, there are links for 'Search Sites', 'Get it from another library (ILL)', 'Author Search', and 'Export'. A red text box on the right explains the purpose of the link resolver.

Please click the link in the opened window to access the full-text document available in another library database.

- **Link Resolver** helps you find the full text in the other library collections.
- Your library can find the content you're looking for through **the ILL (Inter Library Loan) service**.

Boolean Operators #3 – NOT Search

Search Example 5 : Search for documents that contain the word **‘Clean Energy’**, but do **NOT** include the word **‘Nuclear’**

- **NOT Search** : Connect two words with the operator ‘NOT’ like *“clean energy” NOT nuclear*

The screenshot shows the ProQuest search interface. At the top, there are navigation links: Basic Search (underlined), Advanced Search, Publications, Browse, and Change Databases (275). Below these is a search bar with a red border containing the text "clean energy" NOT nuclear. To the right of the search bar is a magnifying glass icon. Above the search bar are several filters: All (highlighted in teal), Scholarly Journals, Books, Videos & Audio, Dissertations & Theses, and All source types (with a dropdown arrow). Below the search bar, there are checkboxes for Full text and Peer reviewed (with an information icon). To the right of these are links for Recent searches and Search tips.

What is NOT SEARCH?

Search Scope of NOT SEARCH

Search the contents that have Word 'A', but exclude results that also contain Word 'B'.

Image of NOT SEARCH

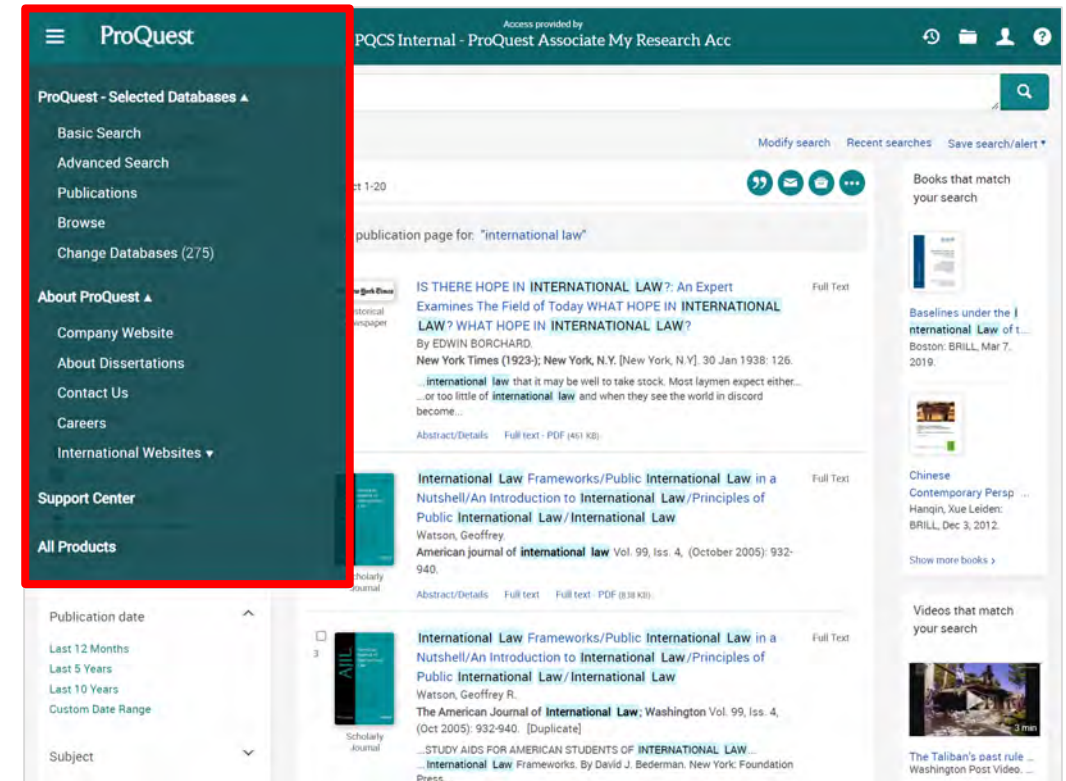

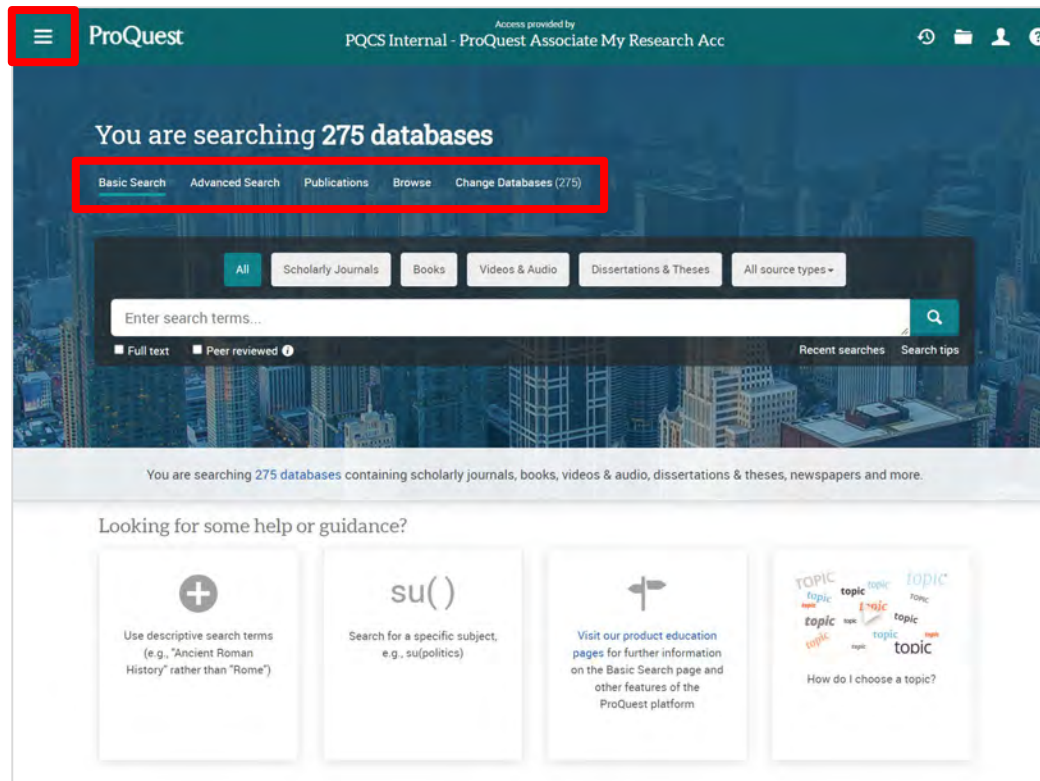

The content includes the word 'Clean Energy', but **it does not have 'Nuclear' in the texts.**

Below the navigation bar, the 'Advanced Search' tab is selected, with sub-tabs for 'Command Line', 'Thesaurus', 'Field codes', and 'Search tips'. The main search area contains a text input field with the value '"social change"', followed by the word 'in', and a dropdown menu showing 'All subjects & indexing - SU°'. Below this, there is a second search row with a dropdown menu showing 'AND', an empty text input field, the word 'in', and a dropdown menu showing 'Anywhere'. At the bottom, there is a 'Limit to:' section with checkboxes for 'Full text' and 'Peer reviewed', and an 'Add a row' button.

Keyword Search vs. Subject Search

Keyword Search

The content actually **has the keyword(s) in its texts.** However, its main theme may be about different topics.

Subject Search

The content **may not state the keyword anywhere in the texts.** However, its main theme is about the keyword and therefore the content is strongly relevant.

Thesaurus for finding similar & related subject terms

Search Example 8 : Search for the **similar terms & related terms** of a subject term 'Product Development'

Recommended to learn more about the library

- "Ex Libris - The New York Public Library" / 『ニューヨーク公共図書館 エクス・リブリス』 - it best shows the role of library in our society.
- **DVD Available at The Tsukuba Univ. [Library & Information Science Library!](#)**
- Also available for free on [Amazon Prime in Japan](#) OR JPY400 for rent.
