00:10 DR. LARRY MAURICIERI: Hi, my name is Larry Maucieri and I'm a board certified clinical neuropsychologist and I'm an associate professor at Governor State University. I'm going to talk to you a little bit today about a case of mild traumatic brain injury. Another video in this series describes some of the characteristics of traumatic brain injury, but just briefly-- to give you a little bit

00:31 DR. LARRY MAURICIERI [continued]: of overview-- traumatic brain injuries can be categorized as mild, moderate, or severe. And there are certain indicators that are used in order to make those distinctions, which we'll talk about a little bit in this case study. A traumatic brain injury is external force to the brain which causes damage or disruption from things

00:53 DR. LARRY MAURICIERI [continued]: like a sports-related injury or a car accident. Injuries can be open-
