Taxonomic and Phylogenetic Study on the
Dictyochophyceae (Heterokont Chromophytes=
Heterokontophyta, Stramenopiles)

Hiroshi SEKIGUCHI

A dissertation submitted to the Doctoral Program in Biological
Sciences, the University of Tsukuba in partial fulfillment of the
requirements for the degree of Doctor of Philosophy in Science

January 2003

CONTENTS

Summary.....	1
General Introduction.....	6
Historical background of the taxonomy of dictyochophycean algae ...	12
Aim of this study.....	15
Chapter 1: <i>Pedinella squamata</i> sp. nov., and re-evaluation of taxonomic characters in the Pedinellales.....	17
Introduction.....	17
Materials and Methods.....	19
Materials and cultivation.....	19
Microscopy	19
Cladistic analysis.....	21
Molecular analyses.....	21
Results.....	24
Light microscopy.....	24
Electron microscopy	24
Phagocytosis.....	26
Cladistic analysis.....	27
Molecular phylogenetic analyses.....	28
Discussion.....	30
Re-evaluation of taxonomic features of the Pedinellales.....	33
Tentacles.....	33
Nutrition, food capture and phagotrophy.....	34
Stalk.....	36
Scales.....	39
Pyrenoid.....	40
Chloroplast-nucleus confluence.....	41
Flagellar transition region.....	43
Circumscription of <i>Pedinella</i> and <i>Pseudopedinella</i>	44
Aspects from cladistics and molecular data	47
Conclusion	49
Emendations and Descriptions.....	50
<i>Pedinella</i> Wyssotzki 1888 emend.....	50
<i>Pedinella squamata</i> sp. nov.....	50
<i>Pedinella swalei</i> sp. nov.....	51

<i>Pseudopedinella</i> Carter 1937 emend.....	52
<i>Pseudopedinella thomsenii</i> sp. nov.	52
<i>Helicopedinella</i> gen. nov.....	53
<i>Helicopedinella tricostrata</i> comb.nov.....	53
Chapter 2: The secondary chloroplast reduction in colorless	
dictyochophycean algae.....	54
Introduction.....	54
Materials and Methods.....	57
Materials	57
Light microscopy.....	57
Electron microscopy	57
DNA extraction and sequencing.....	58
Sequence analyses.....	59
Results	61
General characteristics and identification	61
<i>Pteridomonas danica</i>	61
<i>Ciliophrys infusionum</i>	62
Undescribed organelle in <i>Pteridomonas danica</i>	63
<i>rbcL</i> in <i>Pteridomonas</i> and <i>Ciliophrys</i>	63
Phylogenetic analysis.....	64
Discussion	66
Chapter 3: <i>Rhizochromulina polyplastida</i> sp. nov., phylogenetic	
relationship between the Rhizochromulinales and Ciliophryales	71
Introduction.....	71
Materials and Methods.....	73
Materials and cultivation.....	73
Induction of the swimming cells	73
Light microscopy	73
Electron microscopy.....	74
Photosynthetic pigment analysis	75
Molecular analysis.....	75
Results	78
Description.....	78
Light microscopy.....	80
Electron microscopy	81
Pigment analysis	83

Molecular analysis	83
Discussion	84
Taxonomy of <i>Rhizochromulina polyplastida</i>	84
Relationship between the Rhizochromulinales and Ciliophryales	86
Chapter 4: <i>Flavidamoeba biplastida</i> gen. et sp. nov. (Sulcochrysidales ord. nov.), a possible link between the Dictyochophyceae and other chromophyte classes	88
Introduction.....	88
Materials and Methods.....	88
Materials and cultivation.....	88
Light microscopy.....	88
Electron microscopy	88
Molecular analysis	91
Results	94
Descriptions	94
Sulcochrysidales ord. nov.....	94
Sulcochrysidaceae fam. nov.	94
<i>Flavidamoeba</i> gen. nov.	95
<i>Flavidamoeba biplastida</i> sp. nov.....	96
Life cycle	97
Amoeboid cell	97
Swimming cell.....	98
Molecular phylogeny.....	99
Discussion	100
Taxonomy of <i>Flavidamoeba biplastida</i>	100
Ancestral state of the Dictyochophyceae	103
General Discussion	106
Appendix	113
Acknowledgements.....	119
References	121
Tables	138
Figures	144
Plates.....	170
